AUDITORS' REPORT

TO THE BOARD OF DIRECTORS OF SHANGHAI JAGUAR LAND ROVER AUTOMOTIVE SERVICE CO., LTD.

We have audited the accompanying financial statements of Shanghai Jaguar Land Rover Automotive Service Co., Ltd. (the "Company"), which comprise the balance sheet as at 31 December 2015, and the income statement and cash flow statement for the year then ended.

1. Management's responsibility for the financial statements

Management of the Company is responsible for the preparation and fair presentation of these financial statements. This responsibility includes: (1) preparing the financial statements in accordance with the Accounting System for Business Enterprises to achieve fair presentation of the financial statements; (2) designing, implementing and maintaining internal control that is necessary to enable the financial statements that are free from material misstatement, whether due to fraud or error.

2. Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with China Standards on Auditing. Those standards require that we comply with the Code of Ethics for Chinese Certified Public Accountants and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

AUDITORS' REPORT - CONTINUED

3. Opinion

In our opinion, the financial statements of the Company present fairly, in all material respects, the financial position of the Company as of 31 December 2015, and the results of its operations and cash flows for the year then ended in accordance with Accounting System for Business Enterprises.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015

1. GENERAL

Shanghai Jaguar Land Rover Automotive Service Co., Ltd. ("the Company") was established in Shanghai by Jaguar Land Rover Automotive Trading (Shanghai) Co., Ltd. as a foreign invested enterprise on 10 March 2014 with an operating period of 30 years. The Company mainly engages in automobile development business (exclude transportation) and consulting service in the area of automobile, sales of automobile and its assembly, craft gifts and clothes, automobile model, toys, textile, general merchandise, leather, luggage, outdoor goods, fitness equipment, glasses (exclude contact lens), cosmetics, automobile exhibition, conference exhibition service, consulting, advertisement, e-commerce (exclude value-added telecom, finance), import and export of goods and technique and etc. (subject to license where a license is required). There are two branches established by the Company, which are Huzhou branch and Changshu branch. Huzhou branch mainly engages in consulting service in the area of automobile, sales of automobile assembly, craft gifts and clothes, automobile exhibition, conference exhibition service, advertisement, import and export of goods and technique and etc. Changshu branch mainly engages in driving experience service, sales of automobile assembly, craft gifts and clothes, automobile exhibition, conference exhibition service, import and export of goods and technique and etc. The registered capital of the Company is RMB16,000,000. Jaguar Land Rover Automotive Trading (Shanghai) Co., Ltd. contributed RMB16,000,000 (representing 100%). Details of the capital contributions by the investing party are set out in Note 11.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

As at 31 December 2015, the Company had accumulated losses amount to RMB 8,454,918.46, total current liabilities in excess of total current assets of RMB 353,165.80. As the Company's parent - Jaguar Land Rover Automotive Trading (Shanghai) Co., Ltd. has agreed provide all necessary financial support to the Company in the foreseeable future, so as to maintain the Company's ability to continue as a going concern, the financial statements have been prepared using the going concern basis.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

Accounting system and accounting standards adopted

The Company has adopted the "Accounting System for Business Enterprises" and the supplementary regulations thereto.

Basis of accounting and principle of measurement

The Company has adopted the accrual basis of accounting and uses the historical cost convention as the principle of measurement. If there is any subsequent impairment loss, provision for decline in value should be made in accordance with appropriate standards.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - CONTINUED

Accounting year

The Company has adopted the calendar year as its accounting year, i.e. from 1 January to 31 December.

Recording currency

The recording currency of the company is the Renminbi.

Foreign currency transaction

Transactions denominated in foreign currencies (currencies other than the recording currency) are translated into Renminbi at the applicable rate of exchange ("market exchange rate") prevailing at the beginning of the month in which the transaction occurs. Monetary assets and liabilities denominated in foreign currency are translated into Renminbi at the market exchange rate prevailing at the balance sheet date. Exchange gains or losses are dealt with as finance expenses.

Cash equivalents

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Accounting for bad debts

1) Criteria for recognition of bad debts

Bad debts are recognized in the following circumstances:

The irrecoverable amount of a bankrupt debtor after pursuing the statutory procedures;
The irrecoverable amount of a debtor who has deceased and has insufficient estate to repay; or
The amount owed by a debtor who is unable to repay the obligations after the debts fall due, and the amount is irrecoverable or unlikely to be recovered as demonstrated by sufficient evidence.

2) Accounting treatment for bad debt losses

Bad debt is accounted for using the allowance method and provided according to the recoverability of receivables at the year-end. The appropriate percentages of provision for bad debts relating to significant receivable accounts are reasonably determined based on relevant information such as past experience, actual financial position and cash flows of the debtors, as well as other relevant information.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - CONTINUED

Inventories

Inventories are initially recorded at cost. The cost of inventories comprises of purchase cost, costs of conversion, and other costs incurred to bring inventories to their present location and condition. Inventories mainly include merchandise.

Inventories are accounted for using actual costing method. In determining the cost of inventories transferred out or issued for use, the actual costs are determined by the specific identification method.

The Company has perpetual inventory records.

Provision for decline in value of inventories

Inventories are measured at the lower of cost and net realizable value at the end of a period. When the net realizable value is lower than the cost, the difference is recognized as a provision for decline in value. Provision for decline in value of inventories is made on an individual item basis.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated expenses and related taxes necessary to make the sale.

Fixed assets and depreciation

Fixed assets are recorded at actual cost on acquisition. Depreciation is provided to write off the cost of each category of fixed assets over their estimated useful lives from the month after they are put into use, using the straight-line method. The estimated residual value, useful life and annual depreciation rate of each category of fixed assets are as follows:

<u>Category of fixed assets</u>	<u>Residual value</u>	<u>Useful life</u>	<u>Annual depreciation rate</u>
Vehicles	0%	5 years	20%
Leasehold improvement	-	shorter of lease period and remaining useful life	

Subsequent expenditure relating to a fixed asset should be added to the carrying amount of the asset when the expenditure will result in expected future economic benefits, in excess of those originally assessed, to flow to the enterprise. The subsequent expenditure is added to the carrying amount of the fixed asset to the extent that the resulting carrying amount does not exceed the recoverable amount of the fixed asset.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - CONTINUED

Recoverable amount

Recoverable amount is the higher of (a) an asset's net selling price and (b) the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life.

Impairment of fixed assets

At the end of each period, the Company determines whether an impairment loss should be recognized for a fixed asset by considering the indications that such a loss may have occurred. Where the recoverable amount of any fixed asset is lower than its carrying amount, an impairment loss on fixed asset is recognized for the difference.

Long-term prepaid expenses

Long-term prepaid expenses are amortised using the straight-line method over the expected periods in which benefits are derived.

Borrowing costs

Borrowing costs comprise interest incurred on borrowings, amortization of discounts or premiums, ancillary costs incurred in connection with the arrangement of borrowings, and exchange differences arising from foreign currency borrowings. Borrowing costs incurred are recognized as expenses in the month in which the Company commences operation.

Revenue recognition

Revenue from sales of goods:

Revenue is recognized when the Company has transferred to the buyer the significant risks and rewards of ownership of the goods, retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, will receive the economic benefits associated with the transaction, and can reliably measure the relevant amount of revenue and costs.

Revenue from rendering of services:

Where the outcome of a transaction involving the rendering of services can be estimated reliably, at the balance sheet date, revenue associated with the transaction is recognized using the percentage of completion method. The stage of completion of a transaction involving the rendering of services is determined according to the proportion of services performed to date to the total services to be performed.

Revenue is otherwise recognized at the balance sheet date only to the extent of the costs incurred that are recoverable and service costs are recognized as expenses in the period in which they are incurred. If the service costs incurred are not expected to be recovered, revenue is not recognized.

3. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES - CONTINUED

Interest income:

Interest income is measured based on the length of time for which the enterprise's cash is used by others and the applicable interest rate.

Leasing

A finance leases is a lease that transfers substantially all the risks and rewards incident to ownership of an asset. All other leases are classified as operating leases.

Lease payments under operating leases are recognized as an expense in the income statement on a straight-line basis over the lease term.

Income tax

Income tax is provided under the tax payable method. The income tax provision is calculated based on the accounting profit for the year as adjusted in accordance with the relevant tax laws.

4. TAXATION

Income tax

The effective tax rate for the Company is 25% in current year.

Other taxes

Business tax is levied at 5% of revenue subject to business tax.

City construction and maintenance tax of Shanghai, Huzhou branch and Changshu branch is levied at 1%, 5% and 5% of actual payment of turnover tax, respectively.

The education fund and regional education fund is levied at 3% and 2% of actual payment of turnover tax, respectively.
