In December 2018, Tata Motors domestic sales recorded 50,440 units, continued to be impacted by low consumer sentiments

Mumbai, January 1, 2019: The trend of muted consumer sentiments continued in December 2018, impacting the sales performance of Tata Motors Commercial and Passenger Vehicles Business in the domestic market, which dropped by 8% at 50,440 units as against 54,627. In December 2018, liquidity crisis in the industry, higher interest rates and rising fuel costs continued to impact the commercial vehicle sales, with M&HCV and I&LCV segment witnessing a decline while the passenger vehicle business bounced back. The cumulative sales for the domestic market (April-December 2018) was at 497,972 units compared to 398,764 units over last year, a growth of 25%.

Domestic – Commercial Vehicles

Tata Motors' Commercial Vehicles (CV) domestic sales declined in December 2018 at 36,180 units, by 11%, compared to 40,447 units sold in December 2017, which was an exceptional month last year as demand had spiked due to the change in regulations and the resultant price increase expectations. In December 2018, consumer sentiment remained slightly subdued as customers were waiting to see a sustained level of improvement in the factors like fuel prices and profitability before deciding further investments in new vehicles. Cumulative sales for the fiscal (April-December 2018) at 341,575 units have grown by 27%, compared to 269,535 units sold last year same period.

The M&HCV truck segment declined by 27%, at 11,506 units, compared to 15,828 units over last December. This segment was largely impacted by drop in cargo sales due to low consumer sentiments. The addition of capacity in the parc with existing vehicles being registered for higher payload (increased axle load) also impacted sales. However, the tipper segment continued to grow strongly at 14% over last December and was relatively unaffected on the back of road construction, affordable housing, irrigation projects and government spending on infrastructure projects.

The I&LCV truck segment reported sales of 4,846 units, relatively unaffected with a marginal decline of 5% over last year. The demand in I&LCV sales has been led by the e-commerce sector, increased rural consumption, supported by new products.

The SCV Cargo and Pickup segment continued its growth momentum with sales of 16,367 units, up by 8%, over 15,105 units sold in December 2017. With the hub-spoke model continuously evolving, the small commercial vehicles are in demand for the last mile connectivity needs across the rural and urban markets.

for immediate use

PRESS RELEASE

The normal monsoon for the past three consecutive years, farm loan waivers, Swachh Bharat initiatives are driving the growth in this segment.

The commercial passenger carrier segment recorded sales of 3,461 units, lower by 22% as compared to 4,411 units sold in December 2017. This segment has been impacted due to the slowdown in the procurement of buses by STUs and the permits for private hiring.

Domestic – Passenger Vehicles

December 2018 was a challenging month for the industry with muted consumer sentiments. Despite these challenges, the Tata Motors Passenger Vehicles (PV) domestic sales recorded a growth of 1%, at 14,260 units as compared to 14,180 units sold in December 2017, due to good demand for new generation passenger vehicles. The company is gearing up for the launch of its much awaited SUV, Tata Harrier, in January 2019. Cumulative sales growth of PV in the domestic market for the fiscal (April-December 2018) were at 156,397 units, a growth of 21%, compared to 129,229 units, in the same period, last fiscal.

Export

The company's sales from exports (from CV and PV) in December 2018 was at 3,999 units as against 6,293 units in December 2017, lower by 36%, due to sharp TIV contraction in Bangladesh due to elections and political uncertainty in Sri Lanka.

-Ends-

About Tata Motors:

Tata Motors Limited (BSE: [TATAMOTORS](#)), a USD 45 billion organisation, is a leading global automobile manufacturer of cars, utility vehicles, buses, trucks and defence vehicles.
