**Re: Clarification on News item dated March 14, 2019 captioned "JLR recalls 44000 cars in the UK"**

This is with reference to your email dated March 15, 2019 seeking clarification/confirmation in respect of the above news item. At the outset, we would like to state that the information is not considered material as required in Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

In this regard, Jagaur Land Rover Automotive Plc, Wholly Owned Subsidiary ("JLR") have addressed the media query as under:

*"Jaguar Land Rover is conducting a voluntary recall following the identification of CO2 performance variability with certain 2016-2019 MY Jaguar and Land Rover vehicles fitted with 2.0L diesel or petrol engines.*

*Affected vehicles do not consistently achieve the expected levels of CO2 emissions during the course of Conformity of Production (CoP) testing and as such are being rectified to ensure the correct CO2 performance is dependably achieved.*

*The modifications made to affected vehicles will be made free of charge and every effort will be made to minimize inconvenience to the customer during the short time required for the work to be carried out."*

All affected vehicles will receive corrective repairs and software updates that have been agreed with the relevant authorities. The costs are not material.

This is for the information of the exchange and the members.

Yours faithfully,  
Tata Motors Limited

H K Sethna  
Company Secretary
