Technical Specifications:

Parameter	Description
Engine	1.4CRAIL10
Max Power	52Kw @ 4000 RPM
Max Torque	140 Nm@ 1800- 3000 RPM
Clutch Type	200 Dia , Single plate, Dry friction diaphragm type
Gear Box	GBS 65 Mechanical Shift - 5 Forward & 1 reverse
Front Axle	Rigid front axle
Rear Axle	Salisbury type with hypoid gears and semi floating axle shafts
Suspension	Semi-elliptical leaf spring at front and rear. Antiroll Bar at front
Frame	Frame with Hydro formed Long Members
Cab	Boltable Full Forward Body shell
Battery	12V, 55Ah
Service Brakes	Vacuum assisted hydraulic brakes. Dual circuit hydraulic diagonal split
Fuel Tank Capacity	35 liters
Tyres	165 R14 LT 8PR
Wheel Base	2250
Max Speed	80 kmph
Max Gradability	40%
GVW	2300 Kg
Payload	1100 Kg

for immediate use
