

HEXA

The HEXA, with its distinctive on-road and off-road capabilities, has caught the imagination of the country since its launch. It offers an exemplary and superlative drive to enable the customers to live the *Urban lifestyle* to the fullest.

The Hexa showcased at the Auto Expo 2018 takes the power packed, feature loaded and adrenaline pumped characteristics of the Hexa to the next level. The imposing stance and contemporary SUV silhouette stands out further in the liquid Silver color with stylish dual tone exteriors and mono-grey alloys.

Under the hood, the HEXA is powered by an advanced next-gen 2.2L VARICOR 400 diesel engine which delivers a class leading 400nm torque and 156 PS power and is mated with 6 speed automatic transmission. An inviting premium sporty cabin in all black with sculpted Indulgent seats in Benecke-Kaliko™ upholstery feel like a perfectly tailored suit. ConnectNext Infotainment system, exclusively developed by HARMAN™ with 10 speaker JBL™ system provides a theatre-like drive experience. The comprehensive safety suite with 6 Airbags, ESP, Traction Control System, ABS with EBD, Corner Stability Control ensure vehicle stability and absolute safety. Uncover a world of features with the Flexi Seat Configuration, Automatic climate control, Automatic headlamps, Rain sensing wipers, Cruise control and smartly designed utility spaces.
